

Overview

A high-level summary of EV sales performance, highlighting key trends, growth patterns, and overall market insights.

States

Explore state-wise EV performance, identifying top regions, adoption patterns, and regional growth trends.

Makers

Analyze the performance of different manufacturers, including market share, sales trends, and competitive positioning.

State View

Compare the performance of two selected states across key metrics to evaluate differences in growth and adoption.

EV Market Insights & Recommendations

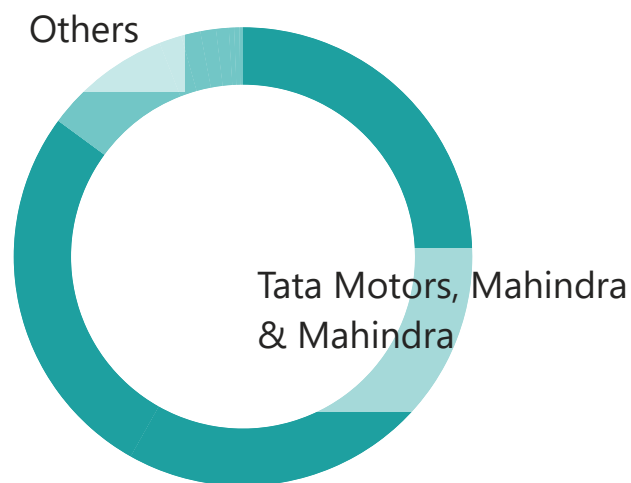

Makers Insights

- Overall, the EV market shows concentration around a few key players, indicating competitive intensity, while the presence of emerging players suggests opportunities for new entrants to capture market share.
- Considering CAGR, penetration, and market share:
 - 2W segment: Key players — Ola Electric, TVS, Ather — together hold **~50.52%** of 2W sales, indicating strong dominance and aggressive EV focus.
 - 4W segment: Tata Motors and Mahindra & Mahindra together account for **~85.08%** of 4W sales, reflecting high market concentration, growth momentum, and strategic EV commitment.

2 - Wheelers

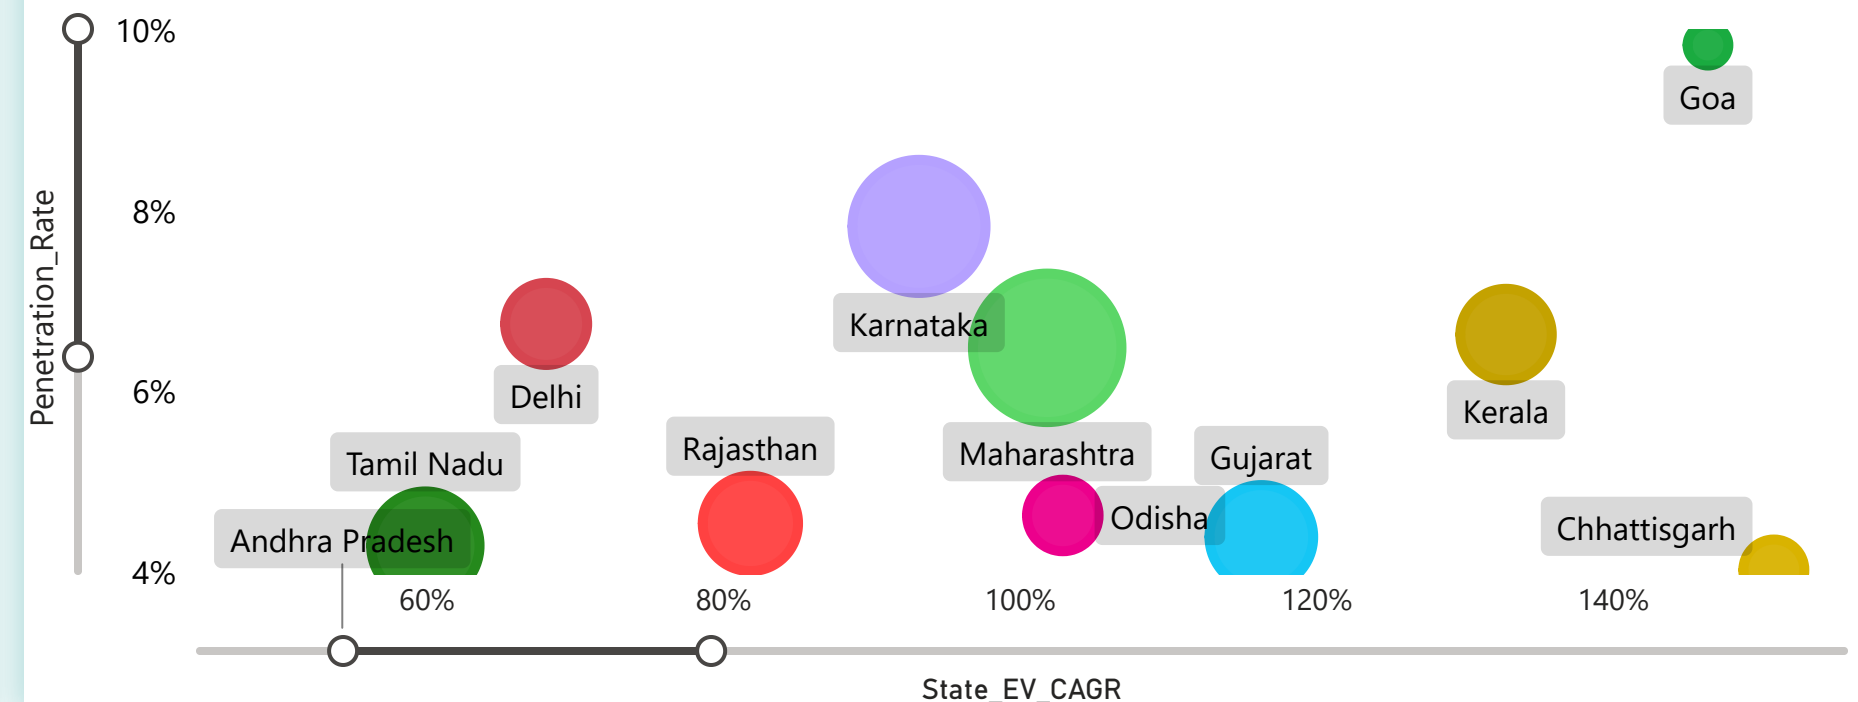

4 - Wheelers

States Insights

- Mature Markets** - Maharashtra, Karnataka, Kerala and Gujarat lead EV adoption with strong CAGR (~90–132%), good penetration (~6.6–7.8%) and good market share, indicating well-established, high-demand markets with strong competition.
- Developing Markets** -
 - Gujarat, Rajasthan, Tamil Nadu, Delhi show moderate CAGR, decent penetration and moderate market share, indicating stable and steadily expanding EV markets.
 - Odisha, Chhattisgarh and Goa shows high CAGR with moderate-to-high penetration but low market share, highlighting early-stage markets with strong growth potential.

Recommendations

- Enter through the 2-Wheeler EV segment
- Establish manufacturing in Gujarat
- Expand first in high-demand states
- Target emerging high-growth markets
- Align expansion with charging infrastructure and seasonality
